SACRED HEART COLLEGE

(A U T O N O M O U S) Tirupattur

Accredited by NAAC with CGPA of 3.31/4 at 'A+' Grade | Affiliated to Thiruvalluvar University, Vellore
NIRF Ranked as 42nd College among the Colleges of India—2023

Dear Sacred Hearts,

It gives me immense pleasure to reach you through this latest edition of our college newsletter, a testament to the spirit of creativity, curiosity, and community that thrives within our institution. I am happy to share with you that **Sacred Heart College has been declared as the best college for the year 2022 among the affiliated colleges of the Thiruvalluvar University.** I dedicate this achievement to the hard work and commitment of all the members of the management, faculty, staff and students. Let us continue to work hard to sustain and improve our standards in the future too.

Education is a powerful tool for developing comprehension, empathy, and critical thinking skills. Our students have the privilege of receiving an education that provides them with knowledge and the ability to analyze complex situations. Our institution is more than just a place for academics; it is also a place where dreams are nurtured, passions are discovered, and lifelong friendships are formed. We at Sacred Heart College demonstrated our solidarity with the people of Manipur by organizing a protest meeting on campus. I am confident that with all our determination, empathy, and unwavering spirit, our brothers and sisters can overcome these challenges and contribute to a brighter, more inclusive future for Manipur.

In today's rapidly evolving world, where technology and industries are constantly changing, the significance of skill development courses among college students is to be overstated. While traditional academic subjects lay the groundwork for knowledge, skill development courses are critical in providing students with the practical, job-specific abilities and competencies required for success in today's workforce. Sacred Heart College has established the Don Bosco Center for Skill Development to emphasize the importance of learning new skills. The center provides various skill subjects across departments, and students can enroll in any course they wish to develop their skill.

Today the life changes constantly with uncertainty, and unexpected challenges, the ability to navigate adversity is a valuable skill that transcends intelligence and technical proficiency. Adversity Quotient, like Intelligence Quotient (IQ) and Emotional Quotient (EQ), is a psychological construct that has gained significant attention in recent years. It is an important factor in determining how people react to difficult situations, setbacks, and the inevitable obstacles that life throws at them. As the world's future generation, students should strive to inherit this quotient, which will be important in a variety of situations.

It's easy to get caught up in our ambitions, challenges, and obligations in the hustle and bustle of our daily lives. Gratitude is a state of mind that can cultivate happiness, strengthen relationships, and improve our overall quality of life. Through this message, I want to encourage each of you to always be grateful for the blessings which you have received.

As we celebrate our 76th Independence Day, let us gratefully remember the martyrs who sacrificed and struggled to attain independence from the British. Let us in unison, pray to the Lord for the prosperity and peace of Mother India.

I conclude by congratulating all the contributors for bringing out Sacred Heart Times that truly reflects the spirit of our college. May it serve as a source of inspiration for generations to come.

May God Bless Sacred Hearts!

With Prayers and Wishes

God Bless Sacred Hearts

**Rev. Dr. D. Maria Antony Raj SDB,
Principal.**
